

INSTRUCTIONS FOR USE

1 Put oranges in the basket on top. Maximum: 1 carton oranges.

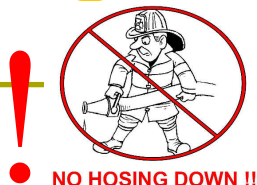

2 Press the GREEN button on side to start squeezing.

3 Press the RED button to stop the machine at any time.

CLEAN THE PULP ON PLASTIC FILTER REGULARY

USE ORANGES
Count
88-100-113-125

BEFORE STARTING TO SQUEEZE: CHECK THAT THE 2 PEEL EJECTORS ARE PROPERLY FITTED, AND THE 4 ROTATING WHEELS HAVE

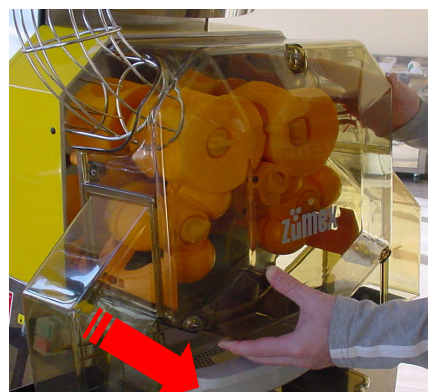

BASIC CLEANING INSTRUCTIONS

1

Take off the plastic cover and Juice tank

2

Pull out the knife

3

Remove both Peel Ejectors, left & right

4

Remove all the screws and rotating wheels

5

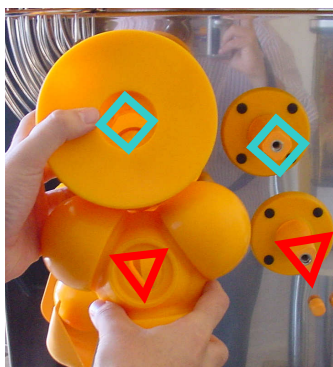

Clean all the parts with water. Parts are dish-washer safe, except for the plastic cover which should be washed with cold water

NEVER ALLOW PEELS TO REMAIN IN THE STAND DURING THE NIGHT

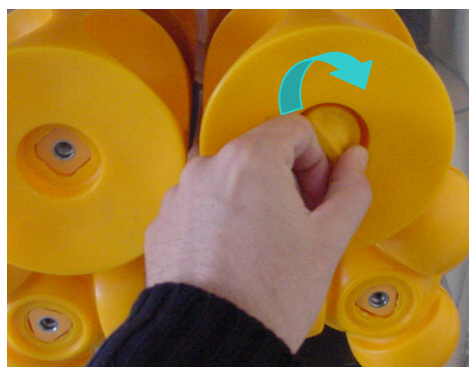

CLEANING INSTRUCTIONS

6

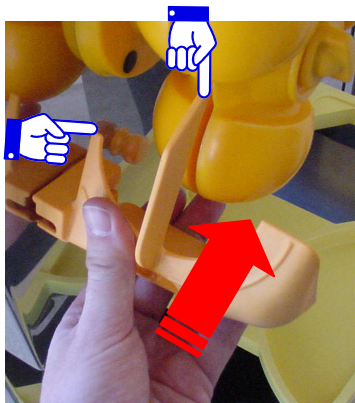

Fit the rotating wheels. Look at the holes: Squares with squares, triangles with triangles.

7

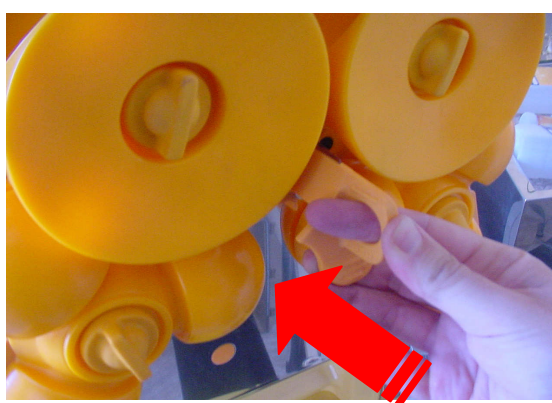

Tighten up the screws firmly. If any screw gets lost replace it before using the juicer again!

8

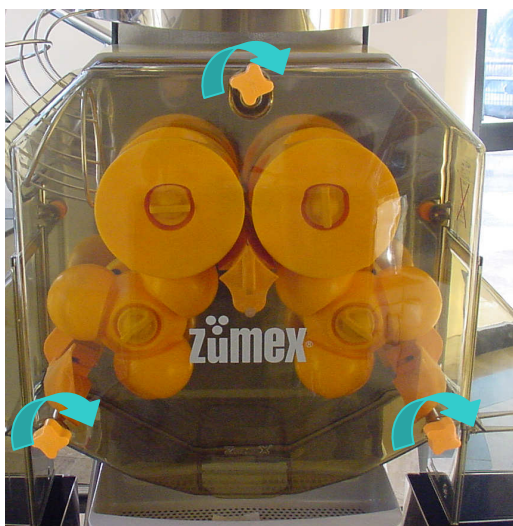

Insert both peel ejectors. **IMPORTANT!** Push the ejectors in fully to avoid breakages when the machine runs.

9

Insert the blade. Push until you hear the 'click'.

10

Put the plastic cover. Remember to put back the three knobs, and the two filters!

Clean the hopper once every month
